

EDDIE EVERGREEN

A GIANT GARDEN WALKABOUT

Eddie Evergreen stands 8 foot tall in his brightly coloured gardening gear. He is the life and soul of every garden party. If you don't have a garden – don't worry! Eddie brings his own garden along in his wonderful wheelbarrow. Eddie Evergreen's wheelbarrow isn't tied to a fixed stage and has its very own magical mobile garden, perfect for audiences everywhere.

The kids (and adults) are amazed. There are all sorts of plants and flowers to discover, like the common or garden juggling-nut or a shy balance-me-not flower. Each child gets to plant seeds in a little flower pot, to make a special mini-garden to take home.

When the weather is really hot, Eddie Evergreen is there to cool things down. He waters all the big and little plants and persons in his care, making sure that none of his seedlings dry out, or wither and droop.

Eddie is not just an expert gardener, he knows all about animals, too. He has a hedgehog living in his wheelbarrow and there's a dragonfly somewhere. There's just a chance you might see it land on his green gardening hat, while he goes about his work in his giant yellow seven-league wellington boots.

A maximum of four 40-minute sets per day can be arranged for your event.

For the walk act, a centrally located, ground-level, secure changing space with an entrance at least 80 cm wide is required at the event, along with parking in close vicinity to the venue.
